## The Power of the Mind

# The Power of the Mind

## “Six Mental Laws”

Once you truly understand the power that your mind has, you will be able to achieve everything that you could ever imagine. As you read each word of this powerful report, you'll find yourself becoming excited about taking action to change your life with the concepts contained in this document.

This realization of how these concepts will benefit your life will become more and more important to you by the second....

As you read and understand the powerful concepts discussed here, *you'll find yourself getting more and more compelled to take action* with the items in this report that I am going to suggest you take.

The concepts contained in this report are condensed down so that you can assimilate the information much faster and when you do that you will be able to use the concepts that much faster.

What may seem like a simple concept to you can be the most powerful concept of all, so make sure that you read and re-read this report until you have the concepts integrated into your mind fully and completely.

By all means integrate this report with any of the other products that you have from us as you will find that all of our products carry a very special meaning to them and often times you will find them to be very profound.

It is my intention to give to you the knowledge to take your skills to an even higher level than you ever thought possible. After reading this report you may naturally feel as if a door has opened up in your mind, an understanding if you will that can allow you to grasp the simplicity of these ideas and cause you to use them to your advantage.

# The Power of the Mind

## Laws of the Mind

### Law #1

#### **Every Mental Image Which You Allow to Take Complete Control of Your Mind Tends to be Realized:**

This brings up the point that you must focus on what you want and make sure that your intent and focus is like a laser. You must also remember that if you let negative images control your mind, you will have them come to pass as well.

This may sound like a simple concept, but the fact is you are where you are today in life based on the mental images that you have pictured of yourself for years.

**Be on guard with this first law as it has a tendency to be realized in the positive or negative.**

So how do you keep the mental images in your mind of the things that you want to achieve, not those that you do not?

The key is “**focus of thought**”. Focus of thought is where you must become very aware of where your mind is going. An example would be that if you were looking to earn a lot of money, but you kept focusing on your lack of ability to do that, the mental image would be the stronger one of the two.

One of the surest ways to do this is through good affirmations (see **Mastery Through Meditation, Magneto & Manipulation courses** for complete overview) so that you can program the mental image in your head that you want, not the one that you don't want.

Once you become aware of the mental images that you are harvesting in your mind you can then learn to change them into the ones that are going to be beneficial and get rid of the ones that won't be beneficial.

I use a block technique when a thought comes into my mind that I don't want in there, I just say to myself “**BLOCK**” and I visualize a big wall going

# The Power of the Mind

up in front and the concept not being able to get through. I may have to do this numerous times in order to fight off the incoming negative thought.

Remember that your thoughts are truly one of the only things that you are in control of and that you are the one responsible for those thoughts so make sure that you have the right mental images that you want so that you can gain a positive outcome.

## Law #2

### **Nothing in Your Mind Should be in Opposition to the Mental Image You Wish to Bring About at that Momenent:**

Ok, so know we are getting into some really interesting territory here. Keep in mind that the concepts are powerful concepts that can like a double edged sword cut both ways.

What you need to do here is make sure that when you have a thought in your mind, it is a pure thought not a double thought. An example would be the thought of you moving into a new house, but having the thought that you could never sell your old house.

When you give your mind a thought and then you put a potential block up similar to what I did in the last law, your original thought or mental picture will not work out the way you expect it to.

Another point to make is to try and be as clear and precise as you can with your thought image. In other words don't second guess your image with the exact opposite or the negative version of it. I know these concepts can be hard to handle and the reason you are reading this is to understand how you can get better control over your mind and create a tremendous amount of Mind Power.

Of course, when you *study the concepts In the **Manipulation** course*, you will truly begin to understand the complete power and control you can exert for yourself and to others with these concepts.

# The Power of the Mind

## Law #3

### If Will and Conviction are Opposed, Conviction Will Prevail:

Will is your intent to do something, conviction is your belief of what is proven in your own mind. Belief is a big factor when it comes to using the full and complete power of your mind. If your belief is too different or opposed to your intent, the belief will always win.

There is a very thin thread between intent and belief and in some cases they are very similar. As with all types of control, you must be able to control the intent but also have the belief that what you are intending will come to pass.

This could very well be the most important of the laws. I speak with people all the time who say their intention to do something is there, but for some reason they just don't get it done. **The key is your belief level.**

How do you work on controlling your belief level?

This is a hard thing to control because we are all made up and wired differently as this relates to using our mind power. The key is to start to have faith in what you are doing and then the belief will start to come as you see the evidence of what you are doing, thus bringing on a conviction that can be quite strong.

The Bible says, **“Faith is the evidence of things hope for but not yet seen”**. Can you believe in something before you see the physical aspect to it?

That is something that you must work on to get this law to work for you and when you do get that under control you will find yourself doing things that you always wanted to do, but were afraid to do because of your belief!

# The Power of the Mind

## Law #4

### **Effort Alone Produces the Reverse of the Hoped for Effect:**

What this law is referring to again is really your belief factor and how that plays into what you are looking to accomplish with the power of your mind. If your belief level is low on what you are looking to accomplish, even putting in the effort will null and void out what you are looking to accomplish.

You must learn how to build your belief up so strong that when you put the effort behind the belief that your outcome or objective will be met. To do this you must train the mind to accept what you want to give unto it not just what it wants to do.

As you develop habits, your mind starts to accept them as the way things should be done. If those habits that you have are bad habits and you want to change them, the mind is very resistant to change. That is why you must force the change so that you can start to take the control back of your mind.

Once you have a high enough belief level you can now put in the effort and realize that you will accomplish that which you are looking for. Another key saying from the Bible is “**Faith without works is dead**”, which means you can have a lot of faith or belief, but if you don’t have the action put behind it, it will be all for naught. Really think on these laws and start to put them to use to empower every area of your life.

## Law #5

### **Any Thought that is Motivated by a Feeling Tends to Become Reality:**

Anytime you add an emotion in to thoughts you increase the thought and mind power substantially. Emotions are powerful tools when used correctly and when used in-correctly can back fire on you and can create an emotional roller coaster that is hard to stop.

Thoughts are things. God created the earth first with his thoughts and then with his words. He spoke the world into existence. You have the same

# The Power of the Mind

capability to do the same thing because you were made in his image, yet most people don't think that they can do a great thing.

Take the thoughts that you have and add substance to them, make them vivid, make them so real that you could reach out and touch them. Believe and know now that your thoughts definitely have power.

Everything that you have ever done in your life started with a thought. Once you had the thought, if you had the belief high enough, you started to go for the thought.

Understand what feelings or emotions you can use to your benefit and learn which ones will only bring you pain. What we eventually realize is that we create our own pain based on our own punishment and judging of what we deem to be wrong.

You will want to use good positive emotions of love and happiness, not negative ones like anger, fear or jealousy. Your mind will respond in kind to the information that you put into it. If you put highly charged positive emotional energy in, you will receive like results, if you put in negative emotions, you can only get back that which you put in.

If you have ever had a feeling or a hunch you know what this means. You become so clear and lucid to the outcome that you could bet on it. That is what is meant by the feelings that you attach to the thoughts. The more emotionally involved you get into the thought the more that it can be realized. Stay focused and keep your thoughts powerfully directed for your outcome.

## **Law #6**

### **You Must Be Convinced & Believe in the Results You Want:**

This law speaks to the all important concept of being convinced of the results that you want. As you are reading these laws it will be apparent to you that these laws work and that you can get them to work for YOU. In fact the more you use these laws and some of the concepts that go along with them the more you will understand the true power that they hold for you.

# The Power of the Mind

These mind power concepts work when you develop the necessary conviction and belief to magnify the goals and objectives that you have in any area of your life.

All Voluntary effort to reach your goal without the help of a vivid, detailed, believable mental image is fruitless. You cannot leave your thoughts and wishes at the abstract level. You cannot vaguely want something, and get it.

To get this to work as you want it to, each of your thoughts and goals must exert a very precise and detailed mental influence. It is necessary to control them, to discipline, to vivify them, to be able to make them real in the outside world.

Think on these laws and apply them to all areas as it relates to getting more power out of your mind.

## **A Couple Powerful Techniques for YOU to Use**

### **#1 The Challenge/Resolution Solver**

This technique is used when you want to resolve a challenge or issue that you are faced with. Remember, you can rely on your subconscious mind to do a lot of the work for you if you will only believe that it will work.

*“The necessary inspiration or resolution to (\_\_\_\_) will come to me during sleep...Tomorrow, I will have the answer to this situation as a matter of course.”*

Naturally as you say this you want to put all of your belief, conviction and will to it so that you be given the answer to your situation.

### **#2 Remote Influencing Pattern**

This is an advanced pattern that works to help you to gain access to someone’s mind to give him or her a message of help, encouragement or persuasion to your way of thinking.

*“ I am penetrating deep into my subconscious mind...I have at my command all the powers of my subconscious mind that God has given me...I am able to send my mind accross time & space”.*

# The Power of the Mind

*“Your mind is now opening to me...I am entering your thoughts...What I am thinking, you will now begin to think”.*

*“I am without your knowledge, focusing your mind...This gentle focusing will open up new worlds of opportunity to you”.*

## THE MESSAGE

- *“I am the solution to your (\_\_\_\_\_) Situation”.*
- *“ I can help you”.*
- *“ This is the answer you have been looking for”.*
- *“Respond today, you can rely on me”.*

The concepts, methods and techniques in this report are used as examples of what you could do with the power of your mind. As you begin to use these concepts you will find that they work very well, almost to the point that it baffles your imagination.

Please use these techniques in the right way, a way that benefits people not one in which you would hurt them. Remember that knowledge is power and used the right way is a truly wonderful thing and used the wrong way can bring you and others harm.

## About Our Products

**Advanced Mind Power** and A. Thomas Perhacs have put together extremely unique products to help you increase the power of your mind. **These products will work for you when you apply the strategies contained in them.**

Each course has been digitally recorded to give you the information you need in the given areas of **Meditation, Hypnosis, Goal Setting, Prosperity Consciousness** and other higher thought topics.

If you haven't yet been able to **experience the value** of how these products can help you, **Order one of these products today** and begin to *gain control of your life* through the power of hypnotic influence, covert persuasion and high impact mind technologies.
